

Zipp

zipp contributors

Version 0.7.1

Usage

Zip utilities:

- **zipls**: lists zip contents
- **zipts**: creates a zip file with a timestamp suffix in the name
- **zipw**: add file to existing zip

Zipw

Add file to zip.

Add the file `README.md` to the zip `dist/zipp-0.7.0-dev_linux_amd64.zip` in the path `zipp-0.7.0-dev_linux_amd64/myreadme.md`:

```
$ zipw -f README.md -i 'zipp-0.7.0-dev_linux_amd64/myreadme.md' -z dist/zipp-0.7.0-dev_linux_amd64.zip
$ zipls dist/zipp-0.7.0-dev_linux_amd64.zip
zipp-0.7.0-dev_linux_amd64/myreadme.md
zipp-0.7.0-dev_linux_amd64/zipls
zipp-0.7.0-dev_linux_amd64/zipw
zipp-0.7.0-dev_linux_amd64/zipts
```

Nested write is supported.

Add the file `README.md` in the path `com/example/readme.md` into the file `WEB-INF/lib/library.jar` into the file `webapp.war` into the file `corporate.ear`:

```
$ zipw -f README.md -i 'webapp.war#WEB-INF/lib/library.jar#com/example/readme.md' -z corporate.ear
```

Zipls

List contents of a zip file.

```
$ zipls dist/zipp-0.7.0-dev_linux_amd64.zip
zipp-0.7.0-dev_linux_amd64/
zipp-0.7.0-dev_linux_amd64/zipls
zipp-0.7.0-dev_linux_amd64/zipw
zipp-0.7.0-dev_linux_amd64/zipts
```

Zipts

Create a zip file with timestamp suffix:

```
$ zipts testdata/  
Zipping /home/enrico/Projects/zipp/testdata  
Completed /home/enrico/Projects/zipp/testdata-20210227173843.zip
```

It is possible to exclude files from zip:

```
$ zipts -x '\.git/*' -x 'vendor/*' .
```
